1. Executive Summary: The 5 Payments Yesterday (Oct 30)

You are completely right: exactly **5 payments** were attempted/processed yesterday on Razorpay.
• **2 Captured Payments:** Both were brand new customer signups paying their **1st bill** (Vijaya & Sunil Kumar).
• **3 Failed Payments:** These were 2nd renewal / subscription payment attempts, and **all 3 failed**.
• **2nd Payments Done Count: 0** second payments were completed yesterday or today.
• **Key Reason for Sunil Chandra's 2nd Bill Failure:** Razorpay confirmed: *"This UPI Autopay is paused. Please unpause it to continue payments with the business."* The customer manually paused the mandate inside their UPI app (PhonePe / GPay).

3. Immediate Action Plan

1. **For Sunil Chandra:** His payment failed because his UPI AutoPay mandate is paused in his UPI app. Ask him to unpause it or send him a direct payment link for order_TshxiMXNV0yxyO.
2. **For Santhosh K R:** Advise him to maintain sufficient bank balance for the auto-debit retry.
3. **Access Control:** Keep all 3 failed accounts as inactive until payment is captured.
